ENVIRONMENTAL REMEDICATION SERVICES

**Program Management • Program Execution
Technical Services**

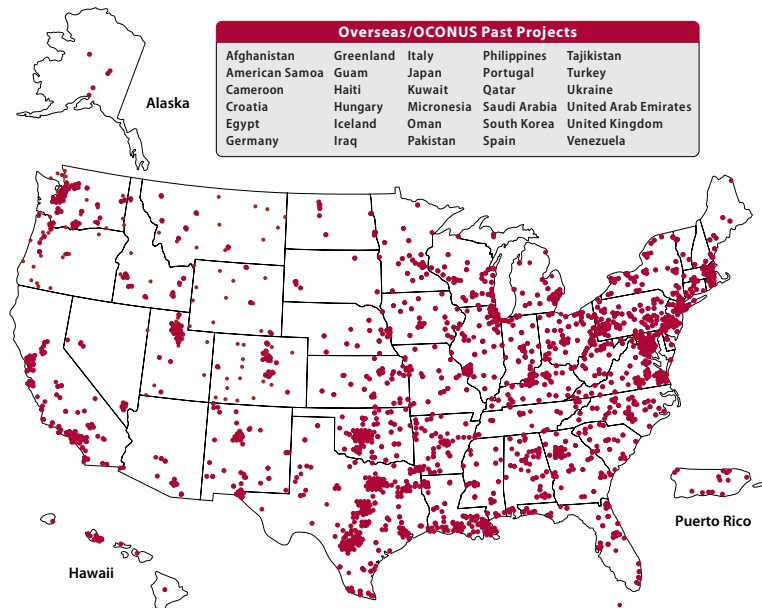

J. M. Waller Associates, Inc. (JMWA®) provides cost-effective, responsive, professional expertise in solving complex environmental challenges facing industry, municipal, state and federal agencies. JMWA has performed as a prime contractor and subcontractor at more than 2200 locations worldwide.

We are thoroughly familiar with environmental restoration issues and demonstrate exemplary support in program management, program execution and technical services. Our environmental team is one of the most qualified and highly respected in the industry. Our broad-based experience is invaluable to clients seeking environmental remediation consulting services and management solutions.

Who We Are

JMWA is a Service Disabled Veteran Owned Business (SDVOB) that provides cost-effective and responsive environmental, engineering, technical and management services to industry, municipal, state and federal government agencies. JMWA brings worldwide best management practices to solve client challenges in the environmental field with services such as restoration and remediation support, environmental consultation and planning, natural/cultural resource protection, quality and compliance support, pollution prevention, safety and occupational health support, hazardous waste management, design and construction management and federal real property management.

JMWA provided environmental, facilities and logistics services at more than 2200 continental U.S., Hawaii, Puerto Rico and OCONUS sites.

U.S. Environmental Protection Agency (EPA), Region 4

EPA Region 4 awarded a 10-year, \$31 million Remedial Action Contract Lite (RAC Lite) to JMWA in May 2008. Examples of EPA specific environmental support include:

- Remedial Investigations and Feasibility Studies (RI/FS)
- Human Health Risk Assessments
- Remedial Action Oversight
- Sampling and Analytical Support
- Developed innovative field approaches to delineating groundwater contamination

JMWA also provides support to EPA Region 4 by offering 7-day-a-week, year-round emergency response assistance addressing releases of oil and hazardous substances, terrorist attacks and federal disasters involving releases of chemical, biological, radiological or nuclear agents.

JMWA works diligently to assess all areas of environmental remediation needs and provides cost-effective solutions.

U.S. Army

Examples of U. S. Army specific environmental support include:

- Execution and management of the Army's Environmental Restoration Program (ERP) at Army installations nationwide
- Developing Remedial Investigations, Feasibility Studies, Interim Removal Actions, Remedial Designs, Remedial Actions, and long-term monitoring programs
- Managing Military Munitions Responses, Remedial Investigations/Feasibility Studies for Munitions Response Areas and Sites, and coordinating with the appropriate federal, state and local regulatory agencies
- Supporting the Training and Doctrine Command's BRAC program by conducting environmental planning for all CERCLA actions, including clean up and real property transfers

Soil removal for underground storage tank (UST) replacement

U.S. Army Corps of Engineers (USACE)

Examples of USACE specific environmental support include:

- Program and Project Management for the full range of CERCLA clean-up activities at Formerly Used Defense Sites across Virginia
- Developing CERCLA Site Investigations (SI)
- Managing Military Munitions emergency and transition of Time Critical Removal Actions
- Design and development of Land Use Control Implementation Plans and strategies for Institutional Control Planning
- UXO/MMRP Program Oversight

JMWA treats each project with the same dedication regardless of size or complexity.

Air Force Center for Engineering and the Environment (AFCEE)

Examples of AFCEE specific environmental support include:

- ERP management and technical support at several active Air Force installations in support of execution of over \$40 million of environmental projects annually
- Support AFCEE role as the lead for the Air Force's ERP
- Preparing base-wide Quality Assurance Project Plan (QAPP) using the approved Uniform Federal Policy (UFP) guidance for the on-going remediation and clean up of historic groundwater contamination
- Supporting all areas of cultural/natural resource support including Integrated Natural Resource Management Plans (INRMP), wetland delineations, timber inventories, natural resource data bases, cultural/historical resource surveys and wetland rehabilitation studies
- World class management approaches to threatened and endangered species, wetlands, watershed protection, fish and wildlife, grounds, forestry, outdoor recreation and public access, agricultural out-leasing, and coastal zone management

An example of wetlands resored to its natural state.

U.S. Navy - Naval Facilities Engineering Command (NAVFAC) Washington

Examples of NAVFAC-Washington specific environmental support include:

- Management and technical project execution for environmental remediation projects in Maryland and Virginia
- CERCLA 5-year reviews
- Long-term monitoring of groundwater, surface water, sediment, and landfill gases; removal/remedial action oversight, Engineering Evaluations/Cost Analysis (EE/CAs); and wetland monitoring
- Conducting site visits consisting of examining for evidence of soil staining, and hazardous substances, examining for any fill areas or depressions, searching for stressed flora or fauna, checking for unusual odor and recommendations of further site work

JMWA is working at several locations to clean up contaminated areas.

For our successful efforts, JMWA has received numerous national awards, including:

- #51 on ENR's 2010 Top 100 CM-For-Fee Firms List
- #57 on ZweigWhite's 2010 Hot Firm List
- 2010 District of Columbia Small Business Person of the Year Award
- 2010 Society for Marketing Professional Services National Marketing Communications Award: Newsletter Internal
- 2009 Air Force Design Merit Award for Lackland AFB, TX, Recruit Housing and Training Master Plan
- 2009 SAME Industry Award to a Small Business in Support of DoD Programs
- 2009 AEGIS Award Recipient
- 2008 Department of Veterans Affairs Enterprising Veteran of the Year Award
- 2007 Department of Defense Service Disabled Veteran Owned Small Business Achievement Award
- 2007 Science Applications International Company (SAIC) Small Business of the Year Award
