FACILITIES

Planning • Programming
Design • Construction Management

J. M. Waller Associates, Inc. (JMWA®) provides architectural and engineering consulting services to clients in both civil and governmental sectors. Since 1993, our firm has performed as prime contractor and subcontractor in both government and commercial contracting sectors at over 2200 locations worldwide.

What is most important to you when choosing a service provider — *Price? Quality? Expediency?*

JMWA understands your concerns for each of these important areas and goes to great lengths to provide each client with individualized strategies based on best practices and thoughtful budget considerations.

Reflecting our long-standing corporate core values, our goal is to earn long-term, trusting relationships with our customers.

To earn those relationships, JMWA places clients' needs first, utilizing to full benefit our specialized expertise and experience in combination with the established bank of resources within the industry.

MANAGING THE VISION® FOR YOUR COMPANY'S SUCCESS

J. M. Waller Associates, Inc. Provides a Full Range of Facilities Services for Government and Civilian Sectors Worldwide.

Our facilities specialists will team with your project planners, managers and expeditors to tailor a plan specific to your long- and short-term goals. We will make certain your questions are answered thoroughly and appropriate steps are taken to complete your project in a timely manner and with the highest level of professionalism.

Our integrated facilities services include the following solutions:

Planning

Master planning; land use planning; space utilization studies; requirements definition and scoping; programming; cost estimates; infrastructure and traffic planning; privatization studies

Facility Design

Concept designs; cost estimates; charrettes; design management; value engineering; permitting; integration of environmental and safety factors; fire protection engineering

Construction Management Services

Phasing studies; acquisition support; cost and schedule analysis; design-build and turnkey services; Title II and on-site field-level oversight; quality assurance and quality control; move in and start up; shake down and commissioning

Facility and Real Property Management

Asset Management; space utilization and condition analyses; federal real property excessing, disposal, transfer, acquisition and exchange; real property record keeping

JMWA brings best management practices and worldwide expertise to solve client facility and real property challenges.

In Our Clients' Words

"[JMWA] completed the design of the 311th Human Systems Wing (HSW) Applied Technology Center four months ahead of schedule with no Task Order modifications and within budget. The design provides four separate laboratories (Chemical, Biological, Radiological, and Toxicology) for the 311th HSW BRAC relocation to Wright-Patterson AFB."

- Clifford C. Fetter, PE
HQ AFCEA

"JMWA's support to Hickam AFB and the C-17 beddown program has been brilliant!"

- Col. Steve Hoarn
Commander 15th CES, Hickam AFB, HI C-17 Aircraft Beddown Masterplan and Environmental Impact Analysis
