# ARCHITECTURAL & ENGINEERING SERVICES

J. M. Waller Associates, Inc. (JMWA®) is a Service Disabled Veteran Owned Small Business (SDVOSB) offering cost-effective and responsive technical and management expertise in architectural-engineering (A-E) and professional consulting services to a wide range of industry, municipal, state, and federal government clients.

Since 1993, JMWA has successfully executed more than 1700 Task Orders on 130 major federal contracts valued at over \$300 million. JMWA provides comprehensive A-E services for federal and Department of Defense (DoD) agencies under various prime and subcontract vehicles to include Indefinite Delivery/Indefinite Quantity (IDIQ) contracts and GSA Schedules (such as Professional Engineering Services). Our highly skilled A-E services experts are capable of addressing immediate and long-term client needs while ensuring projects meet quality, cost and schedule requirements.

## Full-Range A-E Services Support

JMWA provides a full range of A-E services including the standard major disciplines of architectural, civil, structural, mechanical, electrical and fire protection engineering. Additional project characteristics include concerns for historic, physical security, energy management and antiterrorism/force protection. JMWA provides the following A-E services:
