A Multiple Award Winning Service Disabled Veteran Owned Business

FAA NATIONAL SUPPORT SERVICES

J. M. Waller Associates, Inc. (JMWA®) is a Service Disabled Veteran Owned Business (SDVOB) providing cost-effective and responsive environmental, engineering, logistics, technical, management and professional consulting services to federal and civil agencies including the Federal Aviation Administration (FAA).

Working with the FAA since 2002, JMWA stands ready to provide both on-site technical support as well as project related services. JMWA's FAA specific experience encompasses the Eastern Service Area, Central Service Area, Western Service Area, and the Mike Monroney Aeronautical Center in Oklahoma City, OK.

Environmental and Occupational Safety and Health Program Support

JMWA provides technical and management support to the FAA's Environmental Compliance, Hazardous Materials Management, Safe Drinking Water Program, Environmental Cleanup Program and Fuel Storage Tank Program. Examples of FAA specific environmental and occupational safety and health support include:

- » Environmental Remediation and Decommissioning Services
- » Compliance and hazardous waste inspections
- » Drinking water sampling and analysis
- » Environmental Due Diligence Assessments
- » Fuel storage tank inspections and maintenance
- » Fuel storage tank removal and replacement
- » Installing Veeder-Root leak detections systems
- » Geotechnical investigations
- » Environmental Management System development and implementation
- » Pollution prevention
- » Environmental and safety training
- » Phase I Site investigations
- » Industrial Hygiene Program Management
- » Job and Activity Hazard Analysis (JHAs)
- » Lead and asbestos inspections and abatement oversight
- » Electrical safety (Arc Flash)
- » Climbing and fall protection
- » Radiation safety

Engineering Program Support

JMWA provides comprehensive facility management support including engineering analysis and design, construction phase services including turnkey construction, construction management and resident engineering. Examples of facility support include:

- » Fire and life safety engineering support
- » Civil engineering support for implementation and construction of Runway Status Lights (RWSL) system
- » Structural inspection and engineering evaluation services for repairs and installation of fall arrest systems on more than 500 communication and other towers
- » Inspection and evaluation services for parking lot drainage
- » Construction/renovation of TRACON facilities
- » Installation of electrical grounding system supporting STARS installation
