FIRE PROTECTION ENGINEERING

Protecting People, Property and the Environment

Quality Fire Protection Engineering saves lives and property. When it comes to ensuring the safety of property and human life, you want the most thorough, professional, reliable services available. J. M. Waller Associates, Inc. (JMWA®) has made it our business to stay on the cutting edge of fire protection engineering technology.

JMWA delivers the finest professionals to satisfy your objectives for any project — large or small — addressing all prevention, compliance and suppression issues. Our individualized plans assure that your assets, people and property are protected from the devastating effects of fire and smoke damage.

JMWA advocates and implements a comprehensive and cohesive consulting philosophy, from concept to completion. This ensures feasible and practical fire protection solutions.

Sample client list:

- » Department of the Air Force
- » Department of the Army
- » Federal Aviation Administration
- » U.S. Army Reserve
- » University of Texas Health Science Center

Association Affiliations

National Fire Protection Association

Society for Fire Protection Engineers

National Board of Boiler and Pressure Vessel Inspectors

JMWA assists clients in meeting fire codes stipulated by the following:

- » Americans with Disabilities Act
- » International Building Code
- » Joint Commission on Accreditation of Healthcare Organizations
- » National Fire Protection Association
- » Occupational Safety & Health Administration
